"LIFE NEW LIFE" float displayed by the youth of the four local Lutheran churches for the anniversary of the Reformation.

Lutheran Youth Make Float

In observance of the 450th anniversary of the Reformation the youth of the four Lutheran churches here, Concordia, St. John, Hope and Peace, made and displayed on three weekends a float depicting "Life New Life."

The slogan, "Life New Life" was the exhortation which Lutherans over the country are making during the anniversary celebration, both to themselves and to fellow citizens.

The meaning of the words were symbolized in the four dimensional tree which stood beside the float: "A man with his roots in Christ is alive and renews his life as he remains in Christ."

Ronald Ward of the Granite City schools assisted the Lutheran Youth in the construction of the float.

'March of Dimes' Leaders To Prepare for Campaign

D. Dean Bridwell, director of the 1968 March of Dimes fund-raising campaign and the board of directors of the Madison County Chapter of the National March of Dimes Foundation, have called an organizational and informational meeting of all local chairmen and staff

workers for 7:30 p.m. Tuesday, Nov. 14, at Montclair Bowl, Edwardsville.

The director reported that preparations for the annual drive, traditionally conducted during January, will be lined at the kick-off meeting. A large attendance is expected.

"Although the National Foundation sets dates and outlines general procedures which may be followed, the organization and success of the drive in each community is the responsibility of local chairmen appointed by the county board," Bridwell said.

Campaign material will be distributed and staff members will review successful procedures which have produced effective drives in the past, the director explained. All local workers will receive a resume of chapter activities during the past year.

Bridwell pointed out that demands on the Madison county chapter have been great due to the extension of work with congenital defects. Providing scholarship help for young people who plan to study in the area of health-education also is a vital part of the National Foundation's program, he explained.

Port District Working Hard to Attract New Industries to Area

The following statement was issued yesterday by Carl A. Rant, Tri-City Regional Port District manager, regarding a \$70,000,000 petro-chemical complex sought for this area by the district.

Word was received Tuesday that a final decision has been made not to locate the plant here.

"The Port District received information on June 26 that this firm was considering two areas in northern Illinois. One of these sites was owned by them and was located on the Mississippi River. The other was located on the Illinois River south of Chicago near Joliet."

"It was felt by representatives of the Port District that this area had much to offer a company of this type. We contacted their officials and were told that a feasibility study had been prepared on the two sites mentioned above."

Improvements listed include employment of a school social worker, establishment of a day care center, hiring of a curriculum coordinator, teaching of unwed mothers at Booth Memorial Hospital and development of a model non-graded instruction program for kindergarten through the sixth grade.

Third of GC Faculty Has Master Degrees

The annual statistical report of the Granite City school district, prepared for submission to county and state school officials, discloses 638 certificated personnel, including 221 with master degrees and 405 with bachelor degrees. The other nine lack degrees, having been employed before the district limited hiring of teachers to college graduates.

Tax base averages \$14,780 for each of 14,117 kindergarten through twelfth grade students, and 65 pre-school children are enrolled in a federally-aided program. The school tax rate totals \$2.668 per \$100 valuation, with an average of \$499 spent annually to educate each pupil.

Improvements listed include employment of a school social worker, establishment of a day care center, hiring of a curriculum coordinator, teaching of unwed mothers at Booth Memorial Hospital and development of a model non-graded instruction program for kindergarten through the sixth grade.

district arranged a meeting with officers of this company at Southern Illinois University. Interested parties from this area, such as utility and railroad representatives were invited to attend.

Local Assistance

Only a short time was available to prepare a presentation for two sites in this area, showing the economic advantages available to the company if they were to locate in this area. To complete this preparation many organizations and individuals assisted us, some of these organizations being the Tri-Cities Chamber of Commerce, East Side Manufacturers' Association and RIDC. It was necessary to secure such things as comparison in rates for rail, barge and truck transportation to many points in the nation. Utility rates, land costs, labor rates and other information was to be presented to their board of directors in eight days for a final decision on the location of the plant. The Port District

was not being considered as a possible site in the beginning. We were favorable in most of these considerations. However, even though the decision was delayed 80 days to consider these advantages, we were not successful in securing the plant. We are now trying to determine those things which

were lacking that caused this unfavorable decision.

"It is not unusual for the Port District to make presentations to industries who are considering locating in this area. Many proposals have been made in the past and many times the name of the company that we are working with is unknown for various reasons. We are working with many companies and we are sure that consideration is being given to our area by many industries who plan new plants or are moving their present plant to a new location. These decisions are not made overnight, and working with these firms for two or three years before getting a decision is not unusual.

"The Tri-City Regional Port District has many things to offer a new industry. There is

presently available approximately 15,000 acres of prime industrial land with an abundance of power, gas, water and with rail, truck and barge facilities having favorable rates. The Port District is served by 19 trucking firms who have authorized permits to operate in the Port District area. We are served by the Illinois Terminal Railroad, which makes direct connections with nine major railroads, with direct service to almost any point within the nation. Major highways are readily accessible from the Port area. The new Route 151 presently under construction will be an additional advantage to industry locating in this general area. Our labor relations in the Greater Illinois Metropolitan area have improved considerably through the past years, and there is every

indication of additional progress, through such things as the "no work stoppage pledge" which was announced recently.

Efforts To Continue

"We intend to continue our efforts to locate plants in this area and believe that we have much to offer industry interested in such development.

"This article has been presented by the Port District to inform the people of the Port area as to why this particular plant did not locate here. It was not due to a bad labor image which many people would like for industrial and commercial interests to believe exists here.

"The Port District believes that with labor, industry and the many people interested in selling our area working together to show a true picture of the community, our possibilities of growth are unlimited."

Not Considered At First

"I think it only fair that it be pointed out that the Tri-City Regional Port District area was not being considered as a possible site in the beginning. We were favorable in most of these considerations. However, even though the decision was delayed 80 days to consider these advantages, we were not successful in securing the plant. We are now trying to determine those things which

"The compiled data which was presented to the officials of this company did verify that comparable advantages were available if the plant were to be located in the Tri-Cities area. At the aforementioned meeting held on June 30, in addition to the Port Authority's presentation, RIDC made proposals on other sites in the metropolitan area.

New Study Made

These sites were located in Missouri as well as Illinois. The proposal made by the Tri-City Regional Port District was used by the interested company's engineers to prepare a new feasibility study. Sufficient savings were present to cause the company to delay a final decision on the site until Oct. 20.

"Major requirements considered in selecting the site were as follows:

"1. A gas pipeline was required from northern Kansas to a point in northern Iowa and then to the new plant location.

"2. The location of the new plant in relation to the strongest market area for their products.

"3. Construction cost of the initial plant. The Port District area was competitive with the

other two sites on basic construction costs.

"4. One of the points in our favor was the availability of the year around use of the Port and river facilities.

"5. Utility rates were very favorable and a main consideration in our favor.

"6. The need of 1800 acres (approx.) in one site with rail, water and utilities to meet their requirements.

DISMAL WEATHER failed to deter a group of neighborhood youngsters who portrayed Snow White and the Seven Dwarfs in Granite City's Halloween parade. Named as third place winners in the best dressed category, the contingent included Kim Wilson, daughter of Mr. and Mrs. Edward C. Wilson of Rural Route Two, as Snow White, and companions, Paula and Pam Stavely, Jimmy, Gary and David Wallace and Marshall and Lynn Bickel, all from the Pontoon Beach area. Amsted Sales at All-Time High--Earnings Decline

AMSTED Industries reported Tuesday at Chicago that its sales reached an all-time high in fiscal 1967, for the fourth consecutive year, increasing 10% over 1966. Earnings per share decreased 5% as a result of the record level in the prior year, but were the second highest in AMSTED's history.

Sales for the year ended Sept. 30, amounted to \$223,234,000 up from \$203,013,000 last year. Net

income was \$13,027,000, or \$4.77 per share, compared to \$13,792,000, or \$5.03 per share in 1966.

Joseph B. Lanterman, AMSTED president, said, "Labor costs per hour, including fringe benefits, were up as a result of negotiated increases. Pipe making and coating operations were hampered this year by the abnormally severe winter and the drop in housing starts."

Fewer Freight Cars
Lanterman also noted that results in the three months ended Sept. 30 were adversely affected by the decline in general business activity and the lower level of freight car build-

ings. The American Steel Foundries plant here manufactures rail equipment.

All of the capital stock of Litho-Strip Corporation, Chicago, Illinois, was acquired for cash in December 1966. Litho-Strip pre-finishes coil steel and aluminum through the application of coatings, laminating and electroplating.

Cash dividends of \$2.30 per share were paid in 1967 fiscal year compared to \$2.10 per share in 1966. The quarterly dividend was increased five cents to 60 cents per share with the June 16, 1967 payment. This was the fourth increase in dividends in three years.

Additions to fixed assets in 1967 amounted to \$22,100,000. The largest additions resulted from the acquisitions of Litho-Strip Corporation and the Macway Company.

Lanterman said on the basis of present plans, expenditures for plant additions, excluding acquisitions, will be about \$13,000,000 in 1968.

At the board of directors' meeting, a dividend of 80 cents per share was declared payable on Dec. 15 to stockholders of record as of the close of business on Nov. 21.

What's New At HEW

By Melville H. Hosh Regional Director

Department of Health, Education, and Welfare, Region V (States include Illinois, Wisconsin, Michigan, Ohio and Indiana) Recently a big business, Retail cosmetic sales exceed \$2½ billion annually.

Although the consumer receives some protection under the law there are certain things which she, herself, should do.

1. Read and heed the label in the use of cosmetics. You will get the best results and reduce the likelihood of injury from products known to be hazardous to some people.
2. Be skeptical about extravagant claims. The Food and Drug Administration knows of no scientific evidence that any cosmetic will remove wrinkles, restore lost youth to skin, develop a fuller bustline or grow hair on a bald head.
3. Give particular attention to any warnings on labels for cosmetic drugs.
4. Note the warning statements on the labels of hair dye, tints and rinses.
5. If quantity of a product is an important factor, compare the net contents of several brands when making your selection.

If you believe you have been defrauded or injured by a cosmetic, report the facts promptly to the nearest Food and Drug Administration office. Seek immediate medical attention, if necessary. Save the remainder of the product, or the empty container, for evidence in case legal action is indicated. Report to the manufacturer, packer, or distributor listed on the label, and to the store from which you bought the product. Do not take granted that the law — the Federal Food, Drug and Cosmetic Act — provides you more protection than it actually does. The law does not require a cosmetic manufacturer to prove the ingredients (except for colors and "new drugs") safe before marketing, although many manufacturers do this voluntarily.

Now, almost 30 years after the safety provisions of the act became effective, the safety record of cosmetics is in sharp contrast to the early days, and the number of injuries reported is small in proportion to the number of packages sold.

(The Department of Health, Education and Welfare dispenses over 90 percent of its \$13 billion budget to State and local agencies through 208 grant-in-aid programs. The Food and Drug Administration is one of five major constituents of HEW. The others are the Public Health Service, the Office of Education, the Social Security Administration and the newlymerged Social and Rehabilitation Service. The latter includes welfare, aging, vocational rehabilitation and mental retardation.)

'Y' Swimmers Preparing for Meet Nov. 11

The Granite City YMCA swimming team is working hard in practice sessions leading up to its first meet of the season Nov. 11 at the Belleville YMCA.

Coach Ferdie Valdez has 39 boys and girls, ages 7-17, out for the team but is anxious for more interested youth to join the squad.

He pointed out that experience is not expected from those who come for tryouts, since only about ten of the present group competed last year.

The team will swim in ten dual meets plus state and regional competition.

Valdez listed candidates for the team as including Laura Mayfield, Charles Mayfield, Vickie Kubelka, Paul Quinlan, Mark James, Charles Douglas, Gordon Quinn, Mark Loftus, Jeff Loftus, Kenny Jolly, Jeff Jolly, Stephen McCluskey, Dennis Meyers, Robert Diak, Craig Cavins, Robert Rongey, Tammy Walton, Donna Walton, Mike Meyers, Jerry Meyers, Vickie Valencia, Peggy Finch, Tony Valencia, David Van Meire, Nancy Byington, Gary Byington, Gary Hewlett, Tom Hewlett and Mary Burns.

McGovern

youths can be fully evaluated, that foster homes or child care facilities be provided, that a sufficient staff be developed in the county probation office, and that juvenile police officers receive specialized training.

Scroggins charged that McGovern had failed to clear the speech with him as planned. He said his assistant state attorneys who were in charge of juvenile matters have done an excellent job in handling "the many difficult and complex factual situations presented at the level of the juvenile court proceedings."

He also had excellent comments for Judge Michael Kinney and his predecessor, I. H. Streeter, who have been in charge of juvenile court, and for Reidelberger and his assistant, Bruce Groshing, who "handle an almost insurmountable volume of business in an excellent manner."

Scroggins noted that the state juvenile code is new and some items could be altered, but the legislature has made "a valiant effort to properly handle the adjudication and rehabilitation of juvenile delinquents and wayward minors."

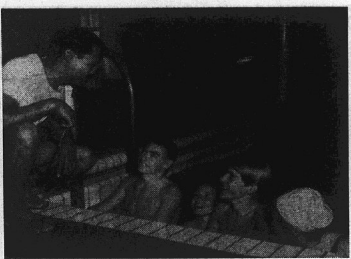

He said, "The problem of operating all county agencies on a limited budget is a problem that the taxpayer and citizens of Madison county will have to face up to."

"However, to make a blanket indictment of the judiciary because of the handling of this problem is unjustified, improper, untimely and cannot benefit the proper administration of justice in Madison county."

Scroggins said today that he is not planning any disciplinary action against McGovern, who also has voice criticisms of other judicial matters, and that McGovern will continue as assistant state's attorney.

Need Proof of Address For Ice Rink ID Cards

Issuance of identification cards to residents of Granite City wishing to use the new ice skating rink at Wilson Park will be expedited by presentation of evidence of the applicant's address at the time cards are purchased, park officials said today.

Harold Brown, park superintendent, said that ID cards will be issued at the rink today from 4 to 7 p.m., on Saturday from 10 a.m. to 2 p.m. and Sunday from 2 to 4 p.m.

Brown announced today that a policy of asking for evidence of an applicant's address has been initiated because many people are attempting to secure cards if they have a Granite City mail address but live out of the city. To qualify for an ID card which entitles them to pay smaller skating admission costs, a skater must live within the boundaries of the city of Granite City, Brown said.

Brown advised that an applicant may present a driver's license or a voter's identification card, or that children who do not have driver's licenses present their parents' voter registration card. He said that if any cases are found in which the applicant actually does not live within the city's boundaries, and cards already have been issued, they will be taken up later and there will be no refund of the card cost.

To State Inspection Plans also are being completed.

things that are none of anybody's business."

Originated With Students

Mrs. Weston pointed out that the dispute originated with students rather than with the NAACP, but that the Madison branch decided to become involved to defend individuals "right to protest without intimidation or reprisals."

She said the circulars sent at the high school using the phrase "black power" were the work of someone other than the NAACP, which "opposes both black and white power and instead seeks mutual progress and understanding."

Mrs. Weston said some students were told by school authorities that their actions could lead to failing grades, inactivity to graduate suspension from athletic teams and loss of opportunity to compete for scholarships.

"Naturally we are backing the youngsters and are interested in anything that is helping to them. We all have to help solve this, white and black," she commented.

FREE TOUR LITERATURE AT HOLIDAY SERVICE

Negro students chanted "black power" slogans, and a mimeographed sheet of paper bearing "black power" quotations was circulated. A number of smaller groups gathered in front of the school and across the street during yesterday's lunch hour, but there were virtually no verbal exchanges between the groups.

On both days students returned to classes at the end of the lunch period without difficulty.

Attending the meeting yesterday in addition to Dragich, Dant and Mrs. Weston were Mrs. Cora Seiden, Mrs. Theine Gibbs, Mrs. Mabel Dandridge and Mrs. Mary Ferguson, all of the NAACP, and John Ervin, alderman of the Venice Third Ward, which is located in the Madison school district. Ervin said he attended the meeting as an interested individual and the parent of a Madison high school student.

Principal Grievances

Mrs. Weston said the principal grievance that precipitated unrest among students was the fact that there is only one Negro cheerleader among the six elected by the school Pep Club.

Mrs. Weston said Supt. Dragich informed the group that an old school regulation fixing the number of Negro cheerleaders of at least one may have to be changed, but that the issue can be settled.

She said assurances also were given that school officials will see what can be done about providing bus service to school athletes playing in night games, to see that they get home on a point close to their home.

While some Negro students refused to eat in the school cafeteria during the several days of protest because they want more Negro help in the school kitchen, there was no discussion of this issue, Mrs. Weston said.

The NAACP delegation also informed Dragich and Dant that only two Negro teachers and one Negro counselor on the school faculty is a poor indication of integration," Mrs. Weston said.

Dragich declined to discuss the situation or the results of the meeting, and Dant was unavailable for comment either yesterday or this morning.

Dragich told the Press-Record that he is running these schools and Dant is running the high school. There are certain

ed for initiating group instruction classes for housewives next Wednesday. Brown said women interested in the classes, to be held on Wednesday and Friday from 9 to 10 a.m., may telephone the park district office to register, beginning tomorrow. The classes will be arranged in groups of 15 each.

Group instruction in hockey skills for boys from 8 to 9 a.m. Saturday will be started Saturday, Nov. 11. Brown said boys may call the park district office starting next Monday to register for the classes. The classes will be held each Saturday at the same time. All instruction classes are free. Only the regular skating admission fee will be charged. The classes are open only to residents living within the boundaries of Granite City.

A total of 2505 ID cards had been issued at the rink until Monday night, latest time for which a count is available. Brown said attendance at the rink Monday was 181, Tuesday was 162, but jumped to 537 on Wednesday when the rink was opened early, at 12:30 p.m., for convenience of parochial school pupils who had a school holiday yesterday. Through last night, a total of 3326 skaters used the rink since its opening last Friday.

A telephone has been installed at the rink and anyone wishing information of any kind concerning the rink or its operation may call 877-5458.

[Think school is a laugh? See how funny it is when you can't get a good-paying job.]

A small education is something you can't laugh off. It's the biggest handicap you'll ever have... today, tomorrow, the day after tomorrow, and every day of your working life.

And it's a funny thing. People who really stay with it and get a good education are often seen laughing all the way to the bank. It's no joke. To get a good job today, you need a good education. A good education is the number-one requirement for the better

jobs with the better salaries... and the better futures, too.

So if you're in school now... stay there! Learn all you can for as long as you can. If you're out of school, you can still get lots of valuable training outside the classroom. Just call on the Youth Counselor at your State Employment Service. Or visit a Youth Opportunity Center, which has been set up in many cities to help you.

Quail, Rabbit Populations High in State

By JIM LOCKART
Department of Conservation
Nothing short of a disaster can keep quail hunters from having a fine season in Illinois this fall.

The season opens at noon Nov. 18 and ends at sunset Dec. 31. Hunting hours, after the first day, are sunrise to sunset. The limits are tight daily and 16 in possession.

The best quail hunting in Illinois is in the ridge and hollow country in the extreme south and southwest. Biologists report that the bird crop is 15 to 25% higher there than it was last year when hunting was excellent. Hunting will be better than average south of Route U. S. 40 in good habitat and in the hilly country along the Mississippi river from Mercer county south to Calhoun county. Prospects are rates as fair along both sides of the Illinois river from Fulton and Mason counties south to Grafton.

Rabbit season opens with the quail season at noon Nov. 18 and closes Jan. 31. The limits are five daily and 10 in possession. Hunting hours are sunrise to sunset.

Rabbit numbers have increased in southern Illinois and are just slightly higher in the west. Populations are also up in the east-central and central areas. Prospects are rates as fair along both sides of the Illinois river from Fulton and Mason counties south to Grafton.

Quality rabbit and quail hunting is available on several public conservation areas. No game is stocked, but the land is managed to produce the optimum numbers. On one, the Washington county area, at Nashville, about 50 miles from the Quad-Cities, sportsmen bagged about 900 cottontails during the 1966 season. This averaged out better than one bunny an acre. Hunters can find out more about public hunting areas by writing for the bulletin, "A Place to Hunt," from the Division of Education, Dept. of Conservation, Room 113, State Office Building, Springfield, 62706.

The Illinois pheasant season opens at noon Nov. 18 and ends Dec. 17 and hunting hours are sunrise to sunset. The limits are two cocks per day and four in possession.

The best pheasant range in the state is in Ford and Livingston counties. Technicians report that populations there are in adjacent counties have been running about 20% higher than 1966. In northern Illinois the population is up but far below the peak of 1966-67.

Deer Hunting Rules in State

Field reports indicate that white-tailed deer populations are as high or slightly higher than they were in 1966 in most sections of Illinois.

Only residents may hunt deer in Illinois. The season begins at 6:30 a.m. Nov. 10 and ends at 4 p.m. Nov. 15. Legal firearms are shotguns of 20 gauge or larger, shooting rifled slugs, or muzzle-loading rifles of .38 caliber or more. Deer must be checked in at designated stations.

The bow season started Oct. 1 and runs to Nov. 6 and Nov. 16 to Dec. 31, inclusive. Hunting hours are from one half hour before sunrise until one hour before sunset.

Northern and central sections of the state are the areas to hunt for trophy bucks. Here whitetails have learned that corn is good to eat and they grow faster and sport bigger racks than they do down south.

The Game Division, Illinois Department of Conservation, Room 106, State Office Building, Springfield, 62706, will advise sportsmen on state lands where deer hunting is permitted.

A graduate of Kentucky Wesleyan College and Yale University Divinity School, he served during world war II as chaplain in the U.S. Air Force, and

was assigned duty in England for 27 months.

He is now in his fifth year as pastor of the church in Nashville, during which period a new educational building has been erected on the historic site.

BEST WISHES for a long and happy retirement are extended to Arthur C. "Art" Davis, retiring chief clerk of the Terminal Railroad Association, by J. A. Mathewson, general superintendent of St. Louis, at left. TRRA officials also gathered at the office to wish Davis well. Left to right are: Mathewson, Davis, O. R. Bailey Jr., vice-president and general manager, and J. G. Baird, agent.

Oldest in Years of Service

Arthur Davis Retires—55 Years with TRRA

Arthur C. "Art" Davis, oldest of 5500 Terminal Railroad Association employees in years of service, retired yesterday after 55 years on the job—50 of them as chief clerk.

"I have some regrets in leaving my work," Mr. Davis told a gathering of TRRA officials who assembled in his office Tuesday afternoon to wish him well. "I regret leaving all the fine associations I have had in my job."

As he shook hands with members of the visiting group, he was particularly pleased when J. A. Mathewson Jr., general superintendent from St. Louis, informed Davis that he had the records checked and that Davis outstripped any other employee in years of service with his 55 years on the clerk's job. The nearest record, Mathewson said, is an employee with 51 years service.

He received good wishes also

from O. R. Bailey Jr. of Chestnutfield, Mo., vice-president and general manager of the Terminal Railroad Association; J. G. Baird, Belleville, TRRA agent, and Melvin Hildebrand of Granite City, yardmaster.

Moved Office Twice

Oddly enough for a man who has worked 55 years on a railroad line, Art, as he is called by line officials and co-workers, has spent all his 55 years in offices within a two-block radius in the Granite City Terminal yards. He has moved office locations only twice and has spent the last 25 years in the present TRRA office at 19th street and the Railroad Tracks.

Otherwise, things have changed since he first started working for the Terminal, Mr. Davis recalled.

"I can remember when I sold tickets in the old Washab depot as part of my clerk's job for 25 cents for a round trip from

Granite City to St. Louis," Davis said, adding that there was a bargain price of "five round trips for a dollar."

Mr. Davis, who came to Granite City with his family from Elwood, Ind., when he was three years old, attended schools and business college in Granite City, and joined the Terminal Railroad Association in 1912 "on probation."

Hired in Two Weeks

That was about the middle of December and Davis was only 15, having been born on Jan. 2, 1897. He wasn't on probation long.

On Jan. 1, 1913, the day before his 16th birthday and only two weeks after he had been hired, "I was put on the regular payroll," Mr. Davis recalls.

At that time the Terminal occupied half of the Washab Depot building in Granite City, and Mr. Davis was assigned there as clerk.

Unlike most workers who spend a great part of their careers advancing to a top position in their line of work, Davis practically started at the top of his. He was named chief clerk five years after joining the Terminal.

"I don't remember just how it happened," he related, "several of them got fired and several others quit, and I was given the job."

Built Freight Office

The Terminal eventually built a freight office across the street from the old Washab Depot and moved its offices there. Davis occupied an office in the freight building until construction of the present building at 19th street and the Railroad tracks in 1942. He has had offices there since.

Throughout his adult life in Granite City, Mr. Davis has been active in many civic and public affairs. He was the first secretary of the Granite City Park district after its formation in 1921, serving two years, and was a member of the Granite City school board from 1928 to 1941.

He has been the Terminal representative on the Tri-Cities Chamber of Commerce for the past 25 years.

During world war I, Davis was on leave of absence for 16 months while he served in France. He is a member of the American Legion, Veterans of Foreign Wars and Veterans of World War I.

Has Two Daughters

He lives with his wife, Mrs. Cornelia Davis, at 3221 Colgate place. They have two daughters, Mrs. Allen Larner and Mrs. Betty Weldon, both of Granite City, and a granddaughter, Barbara Weldon.

Davis has his retirement activities fairly well mapped out. "I like to bowl and I like to play pinocle," he said. "So the first thing I am going to do is join the Senior Citizens. They have an excellent bowling program and a weekly pinocle club. A lot of the senior citizens are old-timers I've known for a long time. I also like to fish and hope to do a lot of it, between bowling matches and card games."

Davis was succeeded as chief clerk, effective yesterday, by Edward Hoerr, St. Louis, who has worked with Davis as clerk for the past 26 years.

Individual conferences of teachers with parents will be held from 2:15 to 3:30 p.m. Friday, with children to be dismissed from school at 2:15 p.m. Ethel Spillers, principal, commented, "It is now, more than ever before, imperative that parents actively participate in the effort to create the best educated and most productive generation the nation has ever known. 15 Apt. Buildings Sold by Sobol to Local Investors

Fifteen four-family apartment buildings valued in excess of \$800,000 have been sold to local individual investors by the John Sobol Realty Co. with James C. Green Construction Co., builders.

The apartment houses are located in Arlington Heights, Gaslight Walk and in Wood River. The sales were in lots of one, two or three buildings. The realty firm is planning to develop and sell about 200 more of the four-family buildings in Madison county. The apartment houses are to be constructed with either early American or French provincial exterior styling in the next two years.

Negotiations currently are under way for the purchase of two tracts in the North Alto-Bethalto area, Sobol said. "The buildings are becoming increasingly popular," Sobol said, "because lenders treat them as single family homes, and with a down payment, the owner occupies his own luxury apartment free."

C&E Strike is Brief; Back on Jobs Today

A strike of railroad clerks of the Chicago & Eastern Illinois Railroad, which began statewide yesterday, was settled late last night, with all employees back on the job and union and railroad officials reported this morning.

The strike involved about 20 men in the Mitchell area. A picket line was established at the Mitchell station yesterday morning, and switchmen and other railroad officials refused to cross it.

The strike slowed C&E rail traffic throughout Illinois and some trains were stopped before a settlement was reached at 11 p.m. yesterday. Elimination of four jobs at the Mitchell area was among other issues, including wages and working conditions, that precipitated the walkout.

Stop Signs Pointed

Stop signs at Willow and Edgewood avenues and at Joy and Wayne avenues were painted black by vandals, it was reported Wednesday afternoon. The street department was asked to replace them as soon as possible.

Hearing Tonight On County Clean Air Ordinances

A public hearing will be held
at 7:30 p.m. today at the local
YMCA on a proposed Madison
county air pollution control or-
dinance by the air pollution
committee of the county board
of supervisors.

An ordinance is to be pre-
sented to the county board for
consideration and possible ac-
tion at its Nov. 22 meeting at
the county courthouse in Ed-
wardsville.

Tonight's session is the sec-
ond of three scheduled. The
first was held last Thursday at
Wood River and the third will
be held at 7:30 p.m. Monday at
the county courthouse. About a
dozen persons attended the
Wood River hearing, and there
was only one speaker, a repre-
sentative of the Alton Manufac-
turers' Association who objected
to any air ordinance by the
county.

The committee is considering
two proposals. One was drawn
by State's Atty. Leon Scroggins,
who defines air pollution as ma-
terial in the outdoor air which
"tends to be injurious" or
which "would interfere with the
enjoyment of life and prop-
erty."

A substitute was submitted
by the Manufacturers Associa-
tion of the Tri-Cities, based on
a revised Granite City air pol-
lution ordinance following state
standards, which states that
contaminants in the air consti-
tuting pollution must be injur-
ious or "unreasonably interfere"
with the enjoyment of life and
property.

GC Jaycees to Report Major Election Results

Granite City Jaycees have agreed to participate in a vote-reporting project for all future major elections, under sponsorship of the National Broadcasting Corporation. It was announced this week by James Jeffries, Jaycees president.

The project was among several topics discussed earlier this week at the Illinois Jaycee state board, meeting held at Champaign and attended by Jeffries, Boyd Priceley, Spark-Plug chairman and Richard Dawdy, first vice-president of the local chapter.

It was announced at the state meeting that Granite City Jaycees have accumulated more Spoke and Spark-Plug awards than any of the 285 chapters in Illinois.

A Go-Go Team

Mugmates And Brownies

Brimming "Mugmates" and Peanut Brownies kick off the course of refreshment for the school term. With some paint and imagination "fenglers" can make colorful "Mug-mates" out of plain mugs. It's a great way to spark up the after-school coffee party.

For the many hostess here's a lively coffee: For each two large mugs, brew regular-strength coffee using 4 Approved Measures of coffee (equal to 9 level measuring table-spoons) and 3 measuring cups water. Pour hot coffee over 2 cinnamon sticks, 4 whole cloves and 4 allspice berries. Let stand over lowest heat for 10 to 15 minutes. Strain into mugs and serve with sugar and whipped cream if desired.

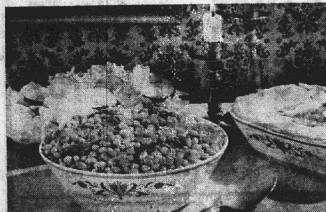

Every hostess should have a dependable brownie recipe she prepares with ease. Whether a beginning baker or a practiced one, this peanut butter version is a must for your recipe repertoire.

Peanut Brownies

1 cup butter or margarine
1 cup creamy peanut butter
2 squares (2 oz.) unwaxed chocolate
2 eggs
1 cup sugar

Combine butter, peanut butter and chocolate in top of double boiler. Cook over hot water until chocolate melts, stirring to blend. Beat eggs. Add sugar gradually while beating. Add chocolate mixture, beat hard 1 minute. Mix and sift flour, baking powder and salt; stir in. Add peanuts and vanilla. Pour into greased 8-inch square pan. Bake in moderate oven, 350°, 40 minutes or until done. Cut into squares while warm.

Canned Beans Star In "Traditional" Meal

Over the years many foods have assumed a traditional place in American cookery. High on any list of this country's long standing favorites would be pork & beans, and apple pie. With good reason too—both foods have undergone a variety of delicious regional adaptations, both are economical, and most important, both make wonderfully good eating.

Since autumn is the season that favors homey tradition, why not enjoy these two all-American favorites for dinner tonight? Not enough time, you say. Thanks to a newer American tradition, convenience foods, you can prepare this satisfying supper with very little time and effort.

Feature a main dish of Steak & Beans Duo. Briefly cook cube steak cut into strips, green onion, and garlic in shortening until tender. Add beans. Heat; stir now and then. Makes 2 to 3 servings.

Homecoming to Start Tomorrow At SIU-SW

Students at the Southern Illinois University Southwestern campus are looking forward to a fun-filled weekend of homecoming activities beginning Friday.

Kick-off for the activities will be the homecoming soccer game with University of Missouri at St. Louis to be played on SIU-SW's Intramural Field at 3:30 p.m. Friday. The game will mark the first public appearance of eight cheerleaders, a first for the Edwardsville campus.

Friday from 9 p.m. to midnight the homecoming dance will provide background for crowning of the homecoming queen. Finalists for queen are: Shirley Fuller, Edwardsville; Phyllis Hayes, East St. Louis; Rosemary Santini, Wood River; and Kathy Weles, Edwardsville. SIU-SW students, alumni, faculty, staff and University guests will attend the dance in the University Center Ballroom.

Ramsey Lewis and his band of jazz will complete homecoming activities Saturday evening at 8 p.m. in the Edwardsville high school gym.

Tickets to the Ramsey Lewis concert are available to the public and may be purchased at the Information Desk at the University Center or at the door for \$1.50, \$2 and \$2.50.

HUD Official Says Congress 'Sluggish'

"In terms of Communist ideology, I am convinced that no effective 'radical Negro left' exists," a spokesman for the Urban Development told an audience Tuesday night at the Southwestern campus of Southern Illinois University.

William E. Hill, an official of HUD's Housing Assistance Office at Chicago, however, affirmed there is a radical Negro left by comparison with the "radical right" which has no sympathy with Negro demands.

His lecture was the third in a series being presented every two weeks at the campus under joint sponsorship of HUD and SIU. About 25 local government officials, students and other interested persons attended the meeting in Lovejoy Library.

Hill, a specialist in housing and intergroup relations, blamed Congress' sluggishness in legislating against racial segregation as a main reason for continued racial discontent.

He said most of the trouble occurs in the cities where 70% of the country's population is concentrated.

Venice Man Held on Car Theft Charge

Rico Bracy, 24, of 1012 College street, Venice, was held in the Venice city jail this morning following his arrest yesterday afternoon in an auto said by police to have been stolen in Ferguson, Mo.

Bracy was charged with driving a car with improper license plates and with theft over \$150. Police Chief John Essington said Bracy would be arraigned in magistrate court later today on the license charge, but that action on the theft warrant would be held up until authorities hear from FBI agents who were notified in the case. Transportation of a stolen auto from one state to another is a federal crime.

Bracy denied the charge and told police he bought the car, a 1966 four-door model, for \$3000. Police said they had received information concerning the car and had been looking for it. Cruising officers spotted it at 2 p.m. yesterday in the 1200 block of Logan street and picked up Bracy.

Officers said the license was 1968 Missouri plates that were issued to a St. Louis man, but no theft report on the plates had been filed. A check of the serial number disclosed the car was stolen from the Ackermann Buick Co. at Ferguson, police said.

Speeding Charge Filed
Phillip A. Imboden, 3406 Kirkpatrick Homes, was arrested early Wednesday on a charge of speeding at 2700 Nameoki road.

ARLINGTON WINNERS
In Halloween costume judging Tuesday night, Mark Rawden (right) receives first prize and Christie Miller, shown with her dog, "Sheri," placed second.

Costume Parade Held At Arlington Heights

In spite of a drizzling rain, approximately 50 children gathered Tuesday at the intersection of Mikel and Sherwin drives, dressed in Halloween costumes, to take part in a parade sponsored by the entertainment committee of the Arlington Heights Civic Association.

The parade, which started at 7 p.m., proceeded up Sherwin drive, with the children shaking noisemakers, provided by one of the mothers. Several automobiles gave light to the marching "spooks" and "goblins."

At the end of Sherwin drive, the costumes were judged by Miss Eileen Schall, Mrs. Besse Lindley, Mrs. Donna Schaefer and Mrs. Faye Heister. First prize was awarded to Mark Rawden, son of Mr. and Mrs. David Rawden, 1 Sherwin drive. Christie Miller, daughter of Mr. and Mrs. Claude Miller, 13 Sherwin drive, and her poodle, Sheri, won second prize, and third prize went to Chip Lane, son of Mr. and Mrs. Pierce Lane, 109a Arlington drive.

Doughnuts and hot chocolate were served in the garage of Mr. and Mrs. Joseph Schall, 66 Karen drive, and bags of goodies were given to each child. Assisting with the serving were Mrs. Ann Schall, Mrs. Marlene Fohlman, Mrs. Eleanor Tarasjko, Mrs. Betty Bishop and Mrs. Betty Young.

Coolidge 'Open House' Set for Monday Night

W. F. Coolidge junior high school will hold its annual "Open House" from 7 to 8:30 p.m. Monday, it was announced today by Raymond T. Jones, principal. The affair is held during National Education Week.

Parents are invited to attend the open house, Jones said, in order that they may become acquainted with their children's teachers and to familiarize themselves with the Coolidge facilities.

No formal program is planned, for Monday evening, the principal reported. However, informal band rehearsal and basketball work-outs will be conducted for entertainment of parents, he added.

'Yule Mail Call' Listing Includes Madison Marines

Two Madison Marines—one recuperating at Great Lakes and Naval Hospital from wounds sustained in action July 4 in Vietnam and the other stationed near Dang Ha on his second tour of duty in the combat area—are among Quad-City military personnel on today's "Yule Mail Call" list.

The names and addresses published today also include a Granite City airman, who volunteered for duty in Vietnam and was assigned to Phu Cat Air Base just four weeks after his marriage, and a second Air Force enlistee stationed aboard the U. S. Navy's largest aircraft carrier, USS Enterprise, which is currently preparing to return to Vietnamese waters for the third time.

Churches, veterans' organizations and other service groups, together with relatives, friends and other individuals are invited to submit the names and addresses of military personnel serving at home and overseas for inclusion in "Yule Mail Call."

Cheer for Servicemen

It is hoped the Christmas service will help to cheer local

servicemen and women who are away from their homes and families during the coming holiday season by enabling Quad-City residents to add the names and addresses to their Yuletide mailing lists.

Among the addresses appearing in today's issue is that of Marine L/Cpl. Billy Joe Thompson, 19, son of Mr. and Mrs. William Thompson, 4154 Madison avenue, Madison, who is still undergoing treatment at the Great Lakes Naval Hospital, near Chicago.

The Madison Marine was wounded July 4 in the vicinity of Quang Tri, Vietnam, when a mortar shell exploded on his unit's defensive position. He sustained severe injuries to his left leg and fragmentation wounds to his right index finger and hand, and forehead.

Marine Thompson had served in Vietnam just one month when wounded. Prior to entering the service Sept. 20, 1966, he was employed at Schermer Bros. Supermarket and the Granite City Army Depot commissary.

2nd Tour in Vietnam
Currently serving his second

tour of duty in Vietnam is Marine Sgt. Edgar R. Wilkins, 23, son of Mrs. Meta Wilkins, Apt. 133, Grenzer Homes, Madison. A graduate of Madison high school, Sgt. Wilkins is a five-year Marine Corps veteran. He returned to Vietnam in May and presently is stationed near Dang Ha.

While most Quad-Cityans are enjoying Christmas with their loved ones at home, Airman Virgil P. Wall Jr., probably will have arrived at his destination in the Far East aboard the USS Enterprise.

Overhauling and re-stocking the Navy's gigantic aircraft carrier are nearing completion at a West Coast port and expectations are the vessel will shortly depart for its third trip in support of U. S. Forces in Vietnam.

Airman Wall's parents reside at 915 Grand avenue, Madison.

With Fighter Squadron
Serving with the 612th Tactical Fighter Squadron at Phu Cat Air Base, Airman Second Class Joseph L. O'Shaughnessy, arrived in Vietnam on May 4, after volunteering for assignment there.

His wife, the former Penny Lou Livesay, to whom he was married on April 1, 1967, while home on embarkation leave, writes that her serviceman husband is "proud to be serving in Vietnam because he feels he has a duty there."

"The rainy season has now started in Vietnam," Mrs. O'Shaughnessy writes, "and there is very little for the men to do for entertainment. I am sure that he would very much appreciate hearing from anyone at home."

An aircraft mechanic, Airman O'Shaughnessy's outfit, dubbed the "Screaming Eagles," consists of F-100 Super-Sabre fighter-bombers, his wife reports. He enlisted in the Air Force just a few days after graduation from Granite City high school in June 1966 and was stationed at Luke AFB, Phoenix, Ariz., before going overseas.

Those submitting the servicemen's name, rank, serial number and correct address to "Yule Mail Call" are asked to identify themselves on the post card, letter or slip of paper in event verification of unit abbreviations is required.

Granite City PRESS-RECORD

Army Post Office (APO) and Fleet Post Office (FPO) numbers must be included when applicable. When area of overseas service is noted, the information will appear in parentheses after the mailing address.

Parcels by Nov. 11

Christmas packages headed overseas to military personnel or civilians should be mailed no later than Saturday, Nov. 11, Granite City Postmaster Theodore Overbeck reminded local residents today.

If airmail rates are used, the deadline is extended to Dec. 11. The same dates are recommended by the post office officials for surface and air mail greeting cards and letter being sent abroad.

Although parcels and other mail destined for Vietnam, shipped via surface mail rates, will be airlifted by military planes from west coast receiving areas, postal officials report the special holiday service will be on a "space available" basis and urged relatives and friends of servicemen in that theatre to mail as early as possible to ensure delivery prior to the holidays.

Commissioner Drive Launched

A drive to recruit additional neighborhood commissioners was launched in the Uniwah (Quad-City) Boy Scout district Monday night with a gathering held at the Mitchell Presbyterian Church.

The meeting was conducted by Bernard Royce, drive chairman, and Curt Stover, assistant commissioner.

Those assisting included Council Vice-President Rollin Henn, District Chairman William F. Winter, District Commissioner Edward Stone, Council Commissioner William Shindel, Council Activities Chairman John Solenberger, District Vice-Chairman Donald Bright, Council Executive Eugene Coe and Assistant District Executive Wilbur Irlan.

Prospects are being contacted and invited to additional sessions at the Mitchell church on the next two Monday nights.

"The neighborhood commissioner's job is to help his units succeed," Royce explained to a group of 30, who were served coffee and pie.

"Each commissioner counsels with the help of unit leaders, sees that the units assigned to him have qualified and trained adult leadership, works with chartered institutions, keeps himself informed by participating in commissioner staff sessions, and helps units with the annual charter renewal procedure."

The commissioner staff is being increased in size due to formation of additional packs, scout troops and explorer posts to serve the growing number of boys aged 8-17 in the Quad-Cities.

Scroggins to Discuss Search, Seizure Laws

Leon Scroggins, Madison county state's attorney, will discuss "Search and Seizure" with area law enforcement agencies next week in the courthouse at Edwardsville.

The first session will be held at 7:30 p.m. Tuesday for half of the county police departments, including Granite City, Madison and Venice. The second meeting will be the following night for other departments. Scroggins said that more questions arise concerning search warrants and the validity of searches without a warrant than any other subject in conversations with members of law enforcement agencies.

October Rainfall in Area 3.23 Inches—Tops Normal

Rainfall of .40 of an inch started on Oct. 24 when storms, accompanied by winds up to 58 miles per hour in some parts of the metropolitan area, brought a fall of .57 inch. There was no registered rainfall on Oct. 26, but on Oct. 27 a fall of .08 inch was recorded on the rain gauge at the Chain of Rocks Canal, and on Oct. 28 a fall of .10 inch was registered. A fall of .08 inch was registered Monday and the final .40 inch on Tuesday.

Heaviest rainfall of the month on a single day was measured Oct. 17 when .91 inch fell, following .87 inch the previous day, Oct. 16. Only other rainfall of the month was recorded Oct. 8 with a fall of .22 inch and on Oct. 14 with .28 inch. Trace on 4 days. A trace—measured in the air but in insufficient quantity to register as rainfall—was recorded on the Chain of Rocks gauge on four days, Oct. 6, 7, 9 and 10. There were 18 days on which neither a trace nor measurable rainfall was recorded. The October total of 3.23 inches brought to 28.776 inches the total rainfall for the ten months of this year or only .15 of an inch less than the normal fall of 29.91 inches for the same ten-month period. Heaviest rainfall so far this year was registered in July when the fall totaled 5.11 inches against a July normal of 3.20 inches. In contrast, however, August rainfall totaled only .38 inch against a 3.02-inch normal. In September 4.14 inches of rain fell in the Quad-City area compared to a 2.76 normal.

Unique Soccer Team at SIU, Carbondale

When Ian Beattie, a former school teacher in Glasgow, Scotland, arrived at Southern Illinois University, Carbondale, last year to work toward an advanced degree in education, little did he realize that he would coach an undefeated international soccer team at the university.

But such has been the case since the SIU International Soccer Club formed last fall.

Along with a number of other foreign students who were enthusiastic about soccer, Beattie first borrowed balls from the University's Intramurals Office to kick around every Sunday afternoon on the field outside of the Arena. "There were just pitched up old goal posts on the field," Beattie said, "but our intention was simply to play for enjoyment."

From 27 countries as word spread, the number of players grew until there were 60 players from 27 countries, joined by 14 American students. Since last fall, games have been played against Indiana State University, Southern Missouri State College, University of Illinois at Chicago Circle, and the former NCAA champions, St. Louis University. The team, though not officially recognized by the University, has maintained an unbeaten record.

"It was kind of hard to get the team organized," Beattie said. "We have players from so many countries, playing different styles and speaking different languages." Gradually the volunteer coach with the cooperation of the players, overcame difficulties

and molded the individuals into a team. Then the club was recognized as a student activity by the SIU Student Activities Office. This office and the Student Government have contributed travel funds for games off campus.

Purchase Own Uniforms

Since the club is considered "unofficial," the team has not had financial support from the SIU athletic department. The players purchased their own uniforms at a local shopping center, which contributed one shirt for every two purchased. The athletic department has paid half of the cost of newly erected soccer goals and provides first aid assistance.

Beattie praised the help of Joseph Chu, faculty adviser of the club. Since the beginning, Chu has been active in promoting the sport, he said. Chu spends every Sunday afternoon with the team, while it is practicing, and helps arrange games. "His morale and material supports come in very handy for the club," Beattie said.

Coach Launders Uniforms

As coach of the team, Beattie also plays center forward. The coach-player even launders uniforms after the games, and helps mark the field before games start. He believes that the activity means more than a sport. It encourages association and promotes better understanding among students from different lands.

Beattie, who is now working toward a doctoral degree in education, hopes the team will be recognized officially by the university, so it can play in the NCAA. As to the future status of the team, SIU Athletic Director Donald Bogdan said the department will take no action on its status until a decision has been made by the SIU athletic committee and the Board of Trustees.

Beattie may be a good soccer coach but he is actually more interested in training mathematics teachers than soccer players. He thinks that there is much room for improvement in the mathematics program of grade schools. "I feel that there is a lot of future in this field," he said.

Beattie, a graduate of Jordanhill College of Education in Glasgow, taught six years in elementary schools before coming to SIU. He and his wife, Elizabeth, who is a graduate student in education, right now are the only Scottish students on the SIU campus. They have found an enjoyable life on the campus. The soccer club and other student activities have offered them opportunities to meet people from all over the world, Beattie said.

Tickets to GCHS Band Concerts Go On Sale Monday

Sustaining memberships include one costing \$10 which will admit two persons to all four concerts and one for \$25 which will admit six persons to the concerts.

Funds earned from the concerts will help defray band expenses next spring. A trip to New Orleans is being planned. Tickets will not be sold after Nov. 30.

SIU-SW Band to Hold Concert on Sunday

The Southern Illinois University symphonic band will give a concert at 3:30 p.m. Sunday at the Southwestern campus under the direction of C. Dale Fjerstad.

Open to the public free and without advance reservations, the program will include varied works of several composers. Among them are "Festive Overture" by Dmitri Shostakovich; "La Fiesta Mexicana," a Mexican folksong symphony by Owen Reed; "Hunting Tower," a ballad for band by Ottorino Respighi; "From Every Horizon," a tone-poem to New York by Norman Dello Joio, and "Divertimento for Band," a number of short descriptive pieces arranged by Vincent Persichetti.

Interact Club to Hold Paper Drive Saturday

The Interact Club of Granite City will hold its third annual paper drive Saturday. The youth club is sponsored by the Granite City Rotary Club.

Papers may be deposited at the parking lot of St. John United Church of Christ, 2901 Nameoki road, or for pickup, contributors may phone TR 6-0961 from 9 a.m. to 5 p.m. and 7 to 9 p.m. today and Friday and from 10 a.m. to noon Saturday.

Simpkins Attends Vocal-Choral Clinic

Warren G. Simpkins, vocal music instructor at Granite City high school, attended the tenth annual Vocal-Choral Clinic last week at the University of Illinois, Champaign. Sessions included lectures on "The Production of the High School Musical" by William Peterman, director of Performing Arts, New Trier Township high school, East and West; "Practical Demonstrations of Vocal Pedagogy" by Todd Duncan, internationally known concert singer and teacher; and "Practical Demonstrations of Vocal Coaching" by Paul Ulanowsky of the University of Illinois faculty.

The New York Pro Musica, a chamber ensemble which performs the literature of Medieval and Renaissance Music, gave a formal concert Friday evening, and the musical director, John R. White, lectured during the day on "Repertory and the Development of Small Ensembles."

Choral material reading sessions were held Saturday morning with the performance of English madrigals by Elmwood Park Madrigal Ensemble; Italian Madrigals by the New Trier high school West Madrigal Ensemble; and 16th Century Choral Music by the University of Illinois ensemble.

The clinic sessions climaxed with a state luncheon meeting of the American Choral Directors Association at which time the Richwoods Community high school choir, Peoria, presented a concert. Simpkins is a member of the American Choral Directors Association.

State Scholarship Aid Hike Reported by EIU

As a result of the General Assembly action, the year-end scholarship aid has been offered for 1967-68 at Eastern Illinois University, according to Ross C. Lyman, director of financial aids.

Lyman pointed out that in fall quarter of 1966-67, \$4,500 or 3031 students received scholarships allocated by the state and federal government. This provided for about \$153,000 to be distributed by the university to students on the scholarship program.

In the same quarter of 1966-67 an increase to \$5,837, or 3236 students were on the scholarship program. This showed an increase to \$168,500 allocated to the students by the various scholarships.

According to Lyman, the scholarship program, which increased from approximately \$475,000 in 1965-66 to approximately \$527,000 in 1966-67, will prove to show a higher increase this year.

93 Area Students Are Scholarship Semi-Finalists

Ninety-three Quad-City students have qualified as semi-finalists in the 1968-69 Illinois State Scholarship Commission program on the basis of performance on the competitive examination and high school academic record.

They are among 16,358 students from 776 high schools and were selected from 34,832 students who took the ACT examination last May 13 or Aug. 5. All semi-finalists are being notified directly and will receive application materials to be completed and returned for final consideration. The winners will be announced in February. Monetary awards to a maximum of \$100 or honorary awards offering no financial assistance will be granted on the basis of financial need as evidenced by data submitted by the applicants and their parents.

For Tuition, Fees
Awards are applicable toward tuition and mandatory fees in undergraduate programs in Illinois colleges and universities and are renewable annually. All winners will receive certificates of merit, including those selecting out-of-state institutions. This year about 850 students are receiving financial assistance through the state scholarship program while attending 110 approved colleges or universities.

Weather Halts Parade-But Not Costume Fete

Dismal weather outdoors that prevented the annual Halloween parade Tuesday at Harris grade school in Madison failed to dampen the spirits of more than 670 kindergarten through third grade pupils who gathered in the school gymnasium for the costume judging contest.

Plans for the parade around the school and neighborhood had to be cancelled when rain continued into the afternoon, according to Mrs. Rose Lawrence, president of Harris School Mothers Club, sponsors of the traditional Halloween event.

Youngsters paraded around the gymnasium in a variety of costumes, ranging from one-eyed green monsters to a medieval page. An assortment of monkeys, ghosts, witches, clowns and Disneyland characters added to the colorful atmosphere.

Cash awards of 75 cents, 50 cents and 25 cents were awarded to first, second and third place winners in each grade.

Winners included: Kindergarten — Jim Gergen and Patty Gerstner, first; Ronnie Graville and Tammy Donaldson, second; and Carl Clayton and Barbara Franch, third.

First grade—Dawn Ray and Kevin Payne, first; Cathy Bellcoff and Donnie Ray, second; and Sylvia Gott and Robert Legatte, third.

Second graders — Lydia Morgan and Chris Blakeburn, first; Susan Schaffner and Bobby Reeves, second; and Christine Andre and Nick Wargin, third.

Third grade winners—Dorothy Holt and Gary Stubblefield, first; Tammy Maeras and Stephen Gibson, second; and Pamela Brooksher and Larry Nowicki, third.

General Steel Industries, Inc., consolidated net sales of \$22,709,102 in the three months ended Sept. 30, with earnings for the third quarter of \$354,171 equal to 24 cents per share, W. Ashley Gray Jr., GSI president announced Wednesday.

For the first nine months of 1967, GSI had total sales of \$88,785,813 and earnings of \$1.11 per share, compared with sales of \$89,694,394 and earnings of \$1.45 per share in the comparable period last year.

Gray noted that reduced GSI earnings in the second half of 1967 are due to the adverse effect on purchases of capital goods of suspension of tax incentives, as well as the fact that few transit cars are being shipped in this period.

Order for Local Plant

"Restoration of the investment tax credit has not as yet had the expected stimulating effect on purchases of capital goods," Gray said. "GSI's Castings Division, however, has in recent weeks begun to note increased activity, and an order totaling approximately \$4,500,000 has been received from the Missouri Pacific System for bulkhead and flat cars."

"We find also that GSI's growth as a supplier of equipment for the electric power generating industry is continuing."

ing and the backlog of orders for turbine shells and other components has grown throughout 1967," Gray said.

He noted that St. Louis Car Division is now in production of 400 rapid transit cars for delivery to the New York City Transit Authority next year.

"While earnings for the second half of 1967 will be lower than last year, we expect to show considerably improved earnings in 1968," he said.

Backlog Is Up

Backlog of orders at Sept. 30, was \$85,640,000 compared with \$88,245,000 a year ago.

In the next few months," Gray continued, "there will be several important opportunities to bid on transit car orders on which deliveries would be required in the latter part of 1968 and 1969. Combined with the delivery of 400 cars to New York and the 35 New Jersey state transit in 1968, the outlook for GSI's transit products is more favorable than it has been in some time and we look for continuing progress in this area."

The firm's nine-month report shows \$4,675,504 income before taxes, with income taxes amounting to \$2,116,000, leaving a net income of \$2,559,504 this year. In the same period of 1966, the income before taxes was \$5,987,004, with income taxes amounting to \$2,645,000, leaving a net income of \$3,342,004.

Appeal for Discarded Eye-Glasses Extended

An appeal made recently for donations of used reading glasses or sunglasses to be furnished needy persons overseas, resulted in contribution of 150 pairs and 50 eyeglass cases, according to Dennis Gillie, 24 Oaklawn drive, who announced the campaign will be extended through Monday.

Quad-Cityans are invited to take the unused and discarded reading or sun glasses to the Credit Office at W. T. Grant store in Nameoki Village shopping center, or Graham's Book store, Niedringhaus and Delmar avenues.

Gillie, who is serving as local coordinator for "New Eyes for the Needy," a nonprofit, nonsectarian volunteer organization, said the eyeglasses will be provided indigent persons with impaired vision in such areas of the free world as Labrador, India, Africa, South America, Arabia, France, Oman, France and The Philippines.

Supported locally by the Granite City Kiwanis Club, the "New Eyes" program is endorsed by the National Society for the Prevention of Blindness, Fight For Sight, Inc., and the American Academy of Ophthalmology and Otolaryngology, Gillie said.

the third period this year was 2,312,458, compared to 3,309,548 for the same period in 1966.

New Soil Conservation Practice Is Outlined

A new conservation tillage program for farmers is being offered for 1968, with those interested in the project invited to register immediately at the Madison county office of the Agricultural Stabilization and Conservation Service, at 110 North Main street, Edwardsville.

Lee Rogers, manager of the county ASCS office, today announced the conservation tillage system should seek to reduce operations to the number and type that will hold down soil losses and at the same time provide fields comparable to conventional methods.

He explained that a variety of methods and machines may be employed to do an effective job and noted that the practice should be started this fall.

Rogers said the system may involve:

1. Chisel plow (with residues retained) followed by minimum tillage planting and cultivation operations.
2. Fall plowing with adequate cover crop—followed by minimum tillage operations.
3. Plow-plant with limited or no cultivations.
4. No primary tillage—or limited primary tillage and use of chemicals to kill vegetation and weeds.
5. Any other system approved by the SCS technician within the standards set up.

The county ASCS officer pointed out that each application will be reviewed by SCS, ASCS and the Extension service, and a plan of action will be developed with the producer on those farms approved for the new practice.

Rogers said the new conservation tillage program will be limited to ten or 12 approvals and farms on which a satisfactory system has already been established will not be eligible.

County to Prosecute Unlicensed Operators

Prosecution is being planned for 15 to 20 persons in various forms of the amusement business in unincorporated areas of Madison county for failure to obtain current county licenses.

World Community Day Observance Set Nov. 9

The annual observance of World Community Day will be held at 7:30 p.m., Thursday, Nov. 9, at First Church of God, 2904 Pershing avenue.

The theme of the meeting will be "Who Shall Separate Us," and the speaker will be the church pastor, Rev. Merlin R. Mosher.

The meetings are sponsored each year by the World Council of Churches.

In this period of international tension the theme takes on new significance, the council members are pointing out.

This year church women united in launching a new plan whereby women who do not wish to sew, but who wish to share in the Matril Aid Offering, can purchase a gift certificate for \$3.

These certificates can be used to purchase a blanket, a school kit or fabrics for Vietnam.

REV. MERLIN MOSHER

Layettes and children's garments for Asian children can be made by those who wish to sew.

GLENN BOURNE Evangelist

President of College To Conduct Revival

Glenn Bourne, president of St. Louis Christian College, will lead the "Crusade for Christ" week-long series of services which start at 9 a.m. Sunday at the Pontoon Beach Church of Christ. His topic for the initial service will be "The Challenge and Consecration of Evangelism."

A widely-known evangelistic leader, Mr. Bourne is a graduate of Johnson Bible College, Knoxville, Tenn., and the Butler School of Religion at Indianapolis, Ind. Prior to his appointment as president of the St. Louis college in March 1966, he served as vice-president and professor of Missions and Evangelism at the school.

This fall, the college's 154 students and faculty members committed themselves to donate a total of \$15,560 for evangelistic endeavors.

Mr. Bourne spent eight years at Bridgeport, Ill. During his tenure of service there, church at the First Christian Church members gave more than \$100,000 to missions, according to Lowry Sutherland, pastor of the Pontoon Beach Church of Christ.

Mr. Bourne's topics for the evening services to be conducted Sunday through Friday at 7:30 p.m., include "The Second Coming," "The Cross," "The Resurrection," "The Two Covenants," "Salvation" and "Decision."

The public is invited to attend the nightly services, Mr. Sutherland said, adding that special activities for young people are being arranged for "Teen Night" and "Youth Night."

Seven members of the Pontoon Church have been appointed chairmen of special groups to promote attendance at each service, the pastor said.

Those named include Chester Andersen, "Men's Night," Lor Andersen, "Men's Night," Lorene Richerson, "Women's Night," Jane Ellsworth, "Teen Night," Floyd Jordan and Jerry Rose, "Free Pass Night," Aline Robertson, "Women's Night" and Anabel Murphy, "Youth Night."

Driver Fined, Jailed

George Turner, 2128 Washington avenue, was fined \$15 on a charge of passing around railroad gates and was sentenced to five days in the county jail for driving without a license Tuesday morning in magistrate court. He was arrested at 10 p.m. Monday at 22nd street and the railroad tracks.

Any Old Maps Tucked Away?--SIU-SW Campus Wants 'em

With more than 45,000 maps already in its possession, the map library at the Southwest campus of Southern Illinois University wants to add more documents to its collection, especially old ones.

"Although we will accept just about any map or copy," says Robert L. Koepke, assistant professor of earth sciences and map curator at SIU, "we lean more toward earlier documents that aren't readily available through normal channels."

With regard to state maps, Koepke is interested in compositions printed prior to 1958. He said maps before that date are hard to come by since most have been discarded by local, federal and state agencies.

Can Make Copies
Koepke is hopeful that some of the earlier documents have been stored away by private citizens and that they might wish to donate originals to the library, or allow copies to be made for use by SIU-SW.

Koepke said the older maps are in demand especially by graduate students or faculty members doing geographical research on specific areas within a state or region of the country. Maps describing early characteristics of local and Illinois counties and nearby counties in Missouri are of particular interest to these people.

A case in point is the work being done by William Baker, associate professor of geography at the Southwest campus, who has been studying and assembling maps for two years for his bibliography and fac-

mile atlas of maps of the Mississippi Valley.

Widespread Search
Working under the auspices of SIU's Graduate Studies and Research Office, Baker has canvassed libraries and collectors in several states searching for documents to enrich his project. The atlas eventually will be filled in SIU's map library, and hopefully it will be published for distribution to other university libraries and collectors.

Baker, who does most of his investigating during the summer and in between teaching breaks, covered the National Archives in Washington last summer and visited several libraries in other states. He points out that a lot of his work is facilitated through the SIU Foundation at the new campus, whose director Charles Schweizer is an "old hand" in the map business.

As former commander of the Army Depot in Granite City, as well as district engineer for the St. Louis Army Corps of Engineers, Schweizer is a formidable authority on graphic research. "I'm an enthusiastic supporter of SIU's map collection," the retired Army colonel notes, "not only because contributions to it come under the Foundation, but simply because I have a personal interest in the project, which has been going on for many years of work with maps."

In his present capacity,

Schweizer supervises administrative processes of donations and contributions to SIU by private individuals, firms and philanthropic agencies.

Tips Followed-Up
"I get a lot of tips on map sources," the affable Foundation director says. "Then I point our researchers in their direction, and we work together toward acquisition of copies the library needs."

Located on the second floor of the Lovejoy Library Building, the map library contains numerous "chests of drawers" arranged in tiers filled with detailed maps and atlases of all the American states and countries throughout the world.

Occupying about 1000 square feet of space, the facility is equipped with a map scanner,

desks and an updated directory for finding nearly any kind of maps one desires. The documents are catalogued under the same system used by the Library of Congress.

SIU's map library was dedicated last April in a ceremony attended by William Overstreet, chief of the National Atlas Project of the U. S. Geological Survey in Washington. Koepke said students and staff had worked 14 months molding the facility into one of the largest in the two-state metropolitan area.

Anyone wanting to see it expand even more may contact Koepke or Schweizer at the University. Both maps and atlases are sought.

"And like fine wine," smiles Koepke, "the older the specimens, the better."

Trainee Jobs Open At Prison in Marion

Warden J. A. Mayden of Marion Prison today announced that five part-time positions will be available for persons interested in a career in corrections, effective Jan. 2, 1968. Those persons interested must pass a competitive examination administered by the U. S. Civil Service Commission.

To be eligible they must also be accepted by Southern Illinois University, and enter the two year program in Corrections taught at SIU's Vocational Technical Institute. Upon successful completion of the two years of full time schooling, those persons selected will be awarded an AA Degree in Corrections and will be appointed to full time positions at the penitentiary. Due to the nature of the work, applications will

not be accepted from females. During the two years of school, those persons selected will work 20 hours per week at the penitentiary and will be paid a beginning wage of about \$46 per week. The work will involve working with regular employees in a training position in supervision of prisoners and assignments will become progressively more responsible with additional education and experience.

Additional qualifications include two years of progressively responsible experience which includes working with people. This experience should have been gained in administrative, clerical or technical work. Most experience gained in military service will be qualifying. These are training positions for future regular employment in Corrections. The U. S. government is an equal opportunity employer. Persons interested should file

by Nov. 17. Those interested in making applications or in getting more details are urged to contact the Personnel Officer, United States Penitentiary, Marion, Ill. 62958. Telephone inquiries will be accepted Monday through Friday, 7:30 a.m. to 4 p.m.
